## TYPES OF EMPLOYMENT

FULL TIME

PART TIME

SEASONAL

TEMPORARY

INTERNSHIP

AT WILL

## PLANTATION

Although we are not in line with the global warming and deteriorating weather condition, if we want no effect by the worst weather we have to do in this context i.e. plantation through out Pakistan. If we are not taking measures it means invite threat to open populations and economic lost because of high risk for natural disasters. dealing with these problem Lahore is in trap of smog whereas Karachi a heatstroke and Islamabad a pollution trap SRO realized this issue and taking into account to spread Green Land Agenda not for awareness among the common people but also practically involved in plantation work in the parks as well as maholla and gali of the city

## COVID-19 VIRUS

**Knowledge and awareness regarding spread and prevention of COVID-19. Among the young adults, and senior citizens of Karachi To measure the awareness of COVID-19 infection among the general population and its remedy of in Pakistan, Sindh, Karachi The most pursued platform for information for corona virus SRO utilized social media, followed by television and print media.**

**This highlighted the level of awareness of corona virus among young adults in Karachi Pakistan.**

**The public knowledge gaps has been noted to develop more effective and successful awareness campaigns using preferred channels continuously. Across-sectional study will be carried out very soon through self-administered questionnaire among 1000 participants. Then minimization of rate of affects**  
**Keywords. Corona virus, Pakistan, pandemic, awareness, preparedness, and implementation of task.**
